

ASEAN REGIONAL MINE ACTION CENTER

POSITION DESCRIPTION (PD)

Position Description

Country:	ASEAN Member States (AMS) and the Republic of Korea (donor country) (possibly working remotely)
Office Location:	Phnom Penh, Cambodia
Position Title:	Consultant -- Feasibility Study on Physical and Mental Need Support of Explosive Ordnance (EO) Victims
Reporting to:	Project Manager (PM)
Responsible for:	Implementing the Feasibility Study on Physical and Mental Need Support of Explosive Ordnance (EO) Victims in the EO affected AMS.

Job Purpose

The purpose of this position is to assist ARMAC Victim Assistance (VA) Project in conducting the Feasibility Study on Physical and Mental Need Support of Explosive Ordnance (EO) Victims in EO affected ASEAN Member States (AMS). The study aims to identify gaps of support needed of EO victims on the physical and mental health and is to provide clinical/medical recommendations to address the identified gaps. This will be implemented through a series of National Workshop and Field Assessment in the focal countries. ARMAC is in partnership with the relevant stakeholders in the region and the donor country, the Republic of Korea, implementing this objective. Therefore, the consultant will collaborate closely with identified institutions in order to achieve the target.

Key Tasks and Responsibilities

- Assist the ARMAC-VA Project in organizing and conducting the National Workshops and Field Assessments in the focal EO affected AMS, including Lao PDR, Myanmar, Thailand and Viet Nam;
- Develop the technical contents of National Workshop and Field Assessment to be conducted in the focal countries;
- Take lead and facilitate relevant sessions of the National Workshops and Field Assessments in the aforesaid AMS;
- Conduct Field Visits which include focus group discussion and meetings with medical and rehabilitation providers together with AMS focal point/institutions and related partners;
- Establish good communication with AMS focal point/institutions and/or other medical institutes/partners for the implementation of the objective;
- Collect data/information and analyse specific needs and assistance services being provided to EO victims in the foresaid countries;
- Produce the assessment reports (summary report and individual country's report) that include recommendations on clinical/medical-related assistance to be provided to the Victims;
- Produce ASEAN *Victim Assistance Country Profile sheets*, which include a brief information of victim assistance situation, need of support, and available services in the focal countries;
- Produce a *Guideline to Enhance Victim Assistance in ASEAN*; and
- Develop *concept notes and draft proposal/s for victim assistance* related program activities for further submission to potential donor/partner;
